

FREE LECTURE
DRONES IN RESEARCH
THE SKY IS ALMOST THE LIMIT

This APH-22 hexacopter is custom built by Aerial Imaging Solutions in Old Lyme, CT. It has been used in many scientific assignments from collecting images of killer whales at sea to penguins in Antarctica.

Don LeRoi is its designer and builder and he will be describing the drone and its uses on June 14th at 7:00 PM at Dooney Aviation located on the South side of the Westerly Airport, 53 Tom Harvey Rd. Westerly RI

The lecture is free and is sponsored by the local Experimental Aircraft Association Chapter 334. Please come and join us.
